STEM PROGRAMS Science, Technology, Engineering and Math

APP ADVENTURES: THE NEXT LEVEL!

Continue your quest to make the next viral app! Whether you want to move past the basic techniques learned in App Attack, or want to jump right in, we are ready for you! Students will choose from a selection of different web-based (HTML5) mobile apps and explore more in-depth programming concepts. Student projects will be accessible on a Black Rocket site and can be played on any mobile device or computer. Publishing to App Stores not included. No prior experience is necessary and students do not need to own a smartphone or tablet to take the class. Students will work in pairs or teams for most of the program. Returning students can create more advanced projects that build on previous years.

Tuition: \$199
Course: CEYTH APPADV
Times: 9AM - 12PM
Dates: Mon. - Thurs., July 10 - July 13
Location: Jersey City Campus

CODE BREAKERS

Calling all future coders, programmers, and designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day, and be on your way to becoming the next tech star! Whether you want to be the next Mark Zuckerberg, or the high school student who just made \$1 million for programming in his bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program. Returning students can create more advanced projects that build on previous years.

Tuition: \$199
Course: CEYTH 129
Times: 1PM - 4PM
Dates: Mon. - Thurs., July 10 - July 13
Location: Jersey City Campus

MAKE YOUR FIRST 3D VIDEO GAME!

Try this new version of a Black Rocket classic! This class allows you to develop a game concept that goes well beyond the limitations of the traditional 2D game design classes and create an immersive 3D world. Students will learn the physics behind 3D games, explore beginner event scripting,

level design, controlling flow of gameplay, and storytelling. Student created games will be available on a password-protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program. Returning students can create more advanced projects that build on previous years.

Tuition: \$199
