COURSE DESCRIPTIONS

BIO 100 General Biology 3 CR
This is an introductory course in contemporary biology designed to provide a foundation for further studies in biology. Instructional techniques include lectures, demonstrations, and laboratory.

ENG 101 College Composition I 3 CR
This course offers instruction in essay writing. While some attention is given to common grammatical problems, the course focuses primarily on the writing process. Students are taught pre-writing, composing, and editing techniques through practical demonstrations, in-class exercises, and analysis of readings and expository prose.

ENG 102 College Composition II 3 CR
This course is a continuation of College Composition I. It provides instruction and writing essays, with a special focus on argumentation and research. Required readings survey a range of current social and political issues. The course culminates in a research paper based on library research. Prerequisite: ENG 101

ENG 112 Speech 3 CR
This course teaches the oral communication skills students need in order to accomplish their college and career goals. All students address the class in talks designed to inform, persuade, and instruct. They also explore interviewing strategies; giving and using feedback; group discussion rules and roles; and the impact of culture, gender, and politics on communication. Students submit weekly logs chronicling their responses to readings and films as well as their own selected speaking/listening experience.

HIS 106 U.S. History II 3 CR
This course traces the course of American history over the last 110 years. Subjects to be considered include Reconstruction, the destruction of the Plains Indians, the peopling of America, ethnic and racial tension, the rise of America to a global power, the Great Depression, World War II, the Cold War, the Civil Rights Movement, the Sixties, and the recent past. Prerequisite: HIS 105

HUM 101 Cultures and Values 3 CR
Integrates materials from literature, the fine arts, the social sciences, and religion. Students learn about cultures and perspectives other than their own and write a series of essays examining value systems and cultural differences. Readings for the course are chosen from novels, short stories, plays, autobiographies, and ethnographic works. Prerequisite: ENG 101

LIT 201 Introduction to Literature 3 CR
This course aims at fostering appreciation for the language of literature, as well as for literature as an examination of human experience and values. Students read short stories, poetry, drama, and one or two novels. The readings for the course illustrate a variety of cultural perspectives. Students are required to write a series of interpretive essays. Prerequisite: ENG 101

MAT 070 Basic Algebra Workshop 1 CR
This workshop is required for all students taking MAT 073, Basic Algebra I. The workshop emphasizes problem-solving.

MAT 073 Basic Algebra 3 CR
Topic in this elementary algebra course include signed numbers, linear equations, polynomials, factoring algebraic fractions, quadratic equations, simultaneous equations, and the coordinate system. Placement is determined by the College Placement Test.

MAT 100 College Algebra 3 CR
This course teaches the essentials of College Algebra. The topics include polynomials, first-degree equation, word problems, graphing, and systems of linear equations, factoring, exponents, quadratic equations, matrices, and radicals. Prerequisite: Exit CPT in Basic Math and Basic Algebra.

MAT 102 Mathematics for the Health Sciences 3 CR
This course provides an introduction to the logic of mathematics and measurement. The role of mathematics in the health professions and the application to problems encountered by the health professional are discussed. Topics covered include basic computation with non-negative rational and real numbers, ratios and proportions, scientific notation, and logarithms. The metric system, its nature, and specific applications to medical dosages and other health problems are also examined. Prerequisite: EXIT Basic Mathematics

MLS 101 Spanish I 3 CR
This course provides students with an introduction to the Spanish language and culture through a competency-based approach. Pronunciation and vocabulary are emphasized through guided student interaction with one another and with the instructor. Cultural awareness and grammar are integrated as students progress. Note: This course is not open to Spanish speakers.

PSY 101 Introduction to Psychology 3 CR
This course is designed to present an overview of psychology. As an introduction to the field, students learn current perspectives and the methods used in psychology today. They become familiar with problems and general findings in the processes of sensation, perception, learning and memory, and consider issues related to language, thought and intelligence. They focus, too, on understanding the connections between emotions, stress, and health, and examine current theories in developmental, personality, and abnormal psychology. Students are encouraged to apply psychological principles to personal and social concerns.

PSY 260 Lifespan Development 3 CR
Lifespan Development investigates current theories related to the changes that occur from the prenatal period through old age. Emphasis is placed on understanding the complex interactions of biological, cognitive, social, and emotional factors that shape the life course. Students will be expected to apply developmental theories to their own life experiences. Prerequisite: PSY 101

SOC 101 Principles of Sociology 3 CR
This course is an introduction to the major concepts, theories, methods, and findings in the field of sociology. It deals with the structure and functioning of society, major social institutions, and such social processes as conflict and change.

*HCCC's Evening Off-Campus Programs provide access to higher education for working adults and other students who are challenged by our traditional college schedule. This program feature enhance class scheduling to make additional course available in the evening at times that allow students to take multiple requirements. Students will be able to complete their General Education and Major requirements for the foundation of Liberal Arts degree. Further, our program supports student services at times and location convenient for working students.
