Presents

Web Accessibility and Title II Compliance: Ensuring Equal Digital Access

This training is designed to educate staff and faculty on the importance of web accessibility in compliance with Title II of the Americans with Disabilities ACT (ADA). As a public institution, we are legally required to ensure that all digital content, websites, and online tools are accessible to individuals with disabilities. This workshop will cover the legal obligations under Title II, best practices for creating accessibility digital content, and practical steps to assess and improve accessibility in your department's web presence.
