"I began college at 62 years old. I worked in the healthcare industry for over 30 years. I was laid off from my job, and it was very difficult, and depressing to find employment. I did not want to collect early retirement so I decided that it was time to do something for myself."

"In September 2019, I was let go from my job of 13 years. My wife was attending Hudson County Community College as an ESL student and eventually continued her journey to becoming an accounting major. I enrolled in HCCC full-time, electing to major in criminal justice with a concentration in homeland security. Everyone at home is an honor student. The pandemic has allowed us to work hard as a family and accomplish our goals with a little effort."

Maximino Cruz III
Associate in Science, Criminal Justice - Homeland Security

"It was hard for me to go to college because of my parents' low income, but finding a place like Hudson County Community College that cares about my academic success and growth by providing me financial support with the Community College Opportunity Grant to achieve my culinary dreams is more than a blessing."

"I started at Hudson County Community College, while still attending North Bergen High School, as part of the Early College (formerly LEAP) Program and I saw it was a high quality education. Once I found out I had earned the New Jersey STARS scholarship, it was an easy decision to come to HCCC, tuition free!"

"I chose to attend HCCC because Pastry Arts is my passion, and I know my mom would have wanted to me chase my dreams in her honor. My mother unexpectedly passed in 2006 when I was 5 years old. I do everything because of her and in her memory because she didn't have a chance to."
