CANNABIS COMPLIANCE

CAN 101 Cannabis Compliance**3.0 UNITS**

This course provides basic knowledge of the law and regulations governing the cannabis industry. Students will be instructed on methods to track good compliance to ensure consumer health and safety and diversion prevention. This course familiarizes students with a point-of-sale system, which tracks sales and inventory. Students also develop a simulated peer-to-peer training session that demonstrates their knowledge of the compliance procedures most common in the field, combined with their ability to communicate them to regulatory agencies. The course also describes the application processes for cannabis licenses.
