## EARLY CHILDHOOD CURRICULUM

---

**ECE 211****Early Childhood Curriculum****3.0 UNITS**

In this course, students extend their understanding of early childhood education. Emphasis will be on planning programs and activities that are developmentally-appropriate for children ages birth through eight. To help in understanding and meeting the needs of different age groups, developmental characteristics for each age group will be related to planning, curriculum, and general expectations. Students will develop themes and lesson plans, construct learning materials, and collect ideas for interest areas and activities.
