NSG 220 Nursing IV 9.0 UNITS

This course focuses on patient in crisis requiring complex nursing care. Content will be arranged in physiologic, self-concept, role function, and interdependent modes. It will include Child Health Nursing. Emphasis will be placed on managing nursing care for multiple patients, delegation and assumption of leadership role. Pharmacology will be integrated throughout the course.

**NSG 240 Nursing
Leadership 2.0 UNITS**

This seminar consists of an analysis of current health trends and issues and their impact on the practice of nursing. Emphasis will be placed on an exploration of contemporary ethical dilemmas, economic and social issues, and concepts related to nursing leadership and the role transaction.

NSG 120 Nursing II 8.0 UNITS

This course builds on the knowledge and skills learned in the first nursing course. The student will care for patients with simple acute and chronic health alterations. Content will be arranged in physiologic, self-concept, role function, and interdependent modes. Mental health nursing and physical/psychosocial assessment of those experiencing health deviations will be included.

NSG 210 Nursing III 9.0 UNITS

This course continues to examine more complex acute care and chronic health alterations. Content will be arranged in physiologic, self-concept, role function, and interdependent modes. The Childbearing Family will also be included. Pharmacology will be integrated throughout the course.

NSG 110 Nursing I 6.0 UNITS

This introductory course includes basic nursing concepts and skills. The focus is on wellness. Areas of emphasis will include the profession of nursing, values, communications, nursing process, physical/psychosocial assessment, nutrition, and pharmacodynamics.
